

Archery

SEASON: All Seasons

SYNOPSIS

Kevin Emard introduces us to bow hunting through a comparison to hunting with a rifle. We learn about tracking methods, traditional practices, and the importance of a deep knowledge and understanding of the animals being hunted. In the second video, we are shown four different bows and learn about the differences between them. In the last video, Kevin demonstrates and explains the speed and power of each bow.

THEMES

game trails, movement patterns, arrow weights and types, traditional tracking versus modern methods, making your own bow and different woods, field point for target practice, target types

LEGENDS/STORIES

How Moose Came to Be

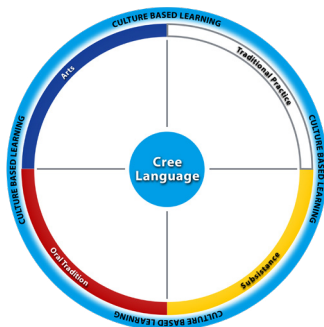

Why Moose Looks the Way He Does (Told in Cree)
